NOTE FOR: Director of Central Intelligence

FROM : Richard J. Kerr  
Acting Deputy Director for Intelligence

SUBJECT : Soviet/Cuban Propaganda

1. Attached are two additional papers on the general topic of Soviet active measures--specifically propaganda and disinformation:

- SOVA is in the process of deciding whether to put their paper out as an IIM or as a Memorandum to Holders of a previous IIM on that subject.
- The OGI draft was prepared as backup material for a Congressional hearing [redacted] The hearing 25X1 never took place, but the briefing provides a useful overview of Soviet active measures around the world.

2. These papers, along with those I sent up earlier, should give you a good feel for where we are in our effort to assess Soviet actions aimed at undercutting US policy around the world.

[redacted] 25X1
